Community Research Council Meeting

HOUSING AND FOOD INSECURITY: COVID-19 AND BEYOND

March 23, 2021
3pm-5pm

Please join us for a conversation to discuss community-driven approaches and solutions with a research lens to address the pandemic's effects on food and housing!

Our Main Mission

The Research Council's main mission is to create a community-driven research agenda around topics that are relevant to community members. This year, members of the council have identified Food Access/Food Insecurity and Housing as the focus areas for our work during the COVID-19 pandemic and beyond.

Meeting Goals

- Create a community research agenda around Food Access/Food Insecurity and Housing
- Discuss evaluation and partnership development between community-based organizations and academic institutions
- Explore research questions around Healthy Chicago 2025

This is the first of three meetings that will focus on identifying past and current initiatives, community assets, and gaps.

Register in advance for this meeting:
