

GOT 8 MINUTES TO LEARN HOW TO SAVE A LIFE?

July 16, 2021, 12:00-1:00pm

Getting your X-waiver and saving a life is now easier than ever!
In this free webinar it will only take 8 minutes to register!

Join us for a step-by-step walkthrough and live troubleshooting on how to register to obtain your X-waiver. **All you will need to participate is a smartphone or computer, Illinois License Number, and DEA Number.** There will also be time for a review of buprenorphine initiation protocols, practice considerations, and common regulatory questions.

FOR THE WEBINAR](#)

Target Audience and Eligibility: Illinois prescribers with a valid state medical license and DEA registration number can register for an X-waiver without mandatory training. This training is for Illinois prescribers who may care for patients with co-occurring opioid use disorder including hospitalists, emergency medicine clinicians, family medicine clinicians, obstetrics/gynecology, midwifery, internal medicine, urgent care clinicians, etc. This includes the following professionals: MD, DO, PA, APRN, NO, CNS, CRNA, CNM.

Objectives:

- Walk providers through how to submit the Notice of Intent to Treat (NOI) to register to receive the X-waiver within 2 months.
- Review evidence-based practices for initiating buprenorphine in the emergency department or inpatient setting, including home inductions.
